Brigham and Women’s Hospital
and
Harvard Medical School

POSTDOCTORAL FELLOW POSITION

Postdoctoral fellow position available in molecular biology and genetics of hearing research in the Morton laboratory at Brigham and Women’s Hospital and Harvard Medical School (Boston, Massachusetts, US), to conduct research in the inner ear, hearing, deafness, and vestibular disorders.

Projects include characterization of a mouse model with a dominant human hearing loss mutation, and CRISPR/Cas9 somatic application for development of gene therapies.

Qualifications of candidates should include knowledge and expertise in molecular biology. Prior research in the auditory system is desirable but not required.

Interested candidates should submit a letter describing interests and relevant experience, curriculum vitae, and the names of three references to:

Cynthia Morton, Ph.D.
